

Ribbon Switches & Specialty Switch Products

Standard models – Custom designs – Short lead-times

Click on the product name or thumbnail image to see a detailed description of each product.

Ribbon Switches

[What are Ribbon Switches?](#)

Click the link for a description of ribbon switch technology and how it works.

[Ribbon Switch Product Line](#)

Press-at-any-point actuation in any length. Choice of sensitivities, colors, and special properties.

Specialty Switch Products

DaDo Emergency Signaling Strip

[DaDo Emergency Switch](#)

Molded design for highest moisture resistance. Ramped or square edge. Custom sizes, colors, logos.

NexGen™ Encased Linear Switches

[NexGen™ Switch](#)

Enclosed in rugged, impact-resistant housing. Custom colors, graphics and labels. Meets ADA standards.

Flex Switches

[Flexswitch II](#)

Replaces lever-actuated, paddle, and wand switches. Cannot break if over-pushed.

Flex Actuators

[Flex Actuators](#)

Flex actuation in a 1/2" threaded cylindrical package. Choice of 3 different housing materials.

Touch Pads

[TP-2 & TP-4 Touch Pads](#)

Sealed large-area switches suitable for high-pressure washdowns and outdoor use. Customizable.

Large Area Switches

[Large-Area Switches](#)

Large-area switches in commercial and industrial versions. Custom colors, text, & graphics.

Foot & Hand Switches

[Foot & Hand Switches](#)

Squeeze, press, and flex designs. Multi-position foot switches.

Sensing Cell Switches

[Sensing Cell Switches](#)

Wafer-shaped switches that are typically used under objects to detect removal.

Vehicle Sensing Products

[RBMA Vehicle Sensing Switch](#)

Low-cost, weather-proof, heavy-duty, and durable. Provides millions of cycles of operation.

[Non-Corroding Vehicle Sensor](#)

Flexible housing mounts on irregular surfaces. Double-sealed for long life. Lengths to 16 ft.

[Car Wash Sensing Mat](#)

Molded design for highest moisture resistance. Ramped or square edge. Custom sizes, colors, logos.
